

LOVE WILL STAY

By Allan James

Doors to Somewhere

You and I we watch the skies,
Looking back in time,
All the love that we shared,
Echoes in our minds...

The feeling we had,
We would reach up to the stars,
So happy and glad to be....

*Memories fade away,
Time moves on today,
Change is on the way,
But our love will always stay....*

Through all the hard times,
You were always there for me,
We use to love,
You were always there for me,

The feeling we had,
We would reach up to the stars,
So happy and glad to be....

*Memories fade away,
Time moves on today,
Change is on the way,
But our love will always stay....*

Remember the days,
We would always dance around,
We were high on love,
Our feet never touch the ground,

The feeling we had,
We would reach up to the stars,
So happy and glad to be....

Chorus... Our love will always stay....
